

Hi Terje, No objection from our side. One clarification.

COP 3014 has been replaced by Introduction to Software Design (CEN 3062C).

We will be updating the catalog to make CEN 3062C a pre-req for COP 3410C.

Using CEN 3062C may be a better fit in this case.

Subject: Updating Honors College minors

Dear Hari,

I hope you are doing well. We have begun updating the Honors College minors to ensure they align with the new course offerings from your department. In particular, we are adding COP 3530C as an alternative to COP 2000 and COP 2220 (both of which are being phased out), and COP 3410C as an alternative to COP 3014.

Please let me know if you approve these changes or if you have any concerns. Since COP 3035C and COP 3410C are courses offered by your department, UUPC requires a statement from you indicating that you do not object to our adding these courses to our minors. The documents being submitted to UUPC are attached to this email (Data Science minor and Digital Game Development minor).

Thank you,

Terje

Dr. Terje Hill, Ph.D.
